CPU Tech Launches Sales Partnership with Quatra Associates, Quest-Rep, and Norcomp SC

Establishes a Solid Sales Presence in the Southwestern U.S.

PLEASANTON, California. – May 20, 2009 – CPU Technology, Inc. (CPU Tech), a leader in secure processing solutions and compatible electronics modernization, announces today the signing of relationships with Quatra Associates, Quest-Rep, and Norcomp SC to sell the Acalis Secure Processor and software compatible electronic modernization solutions. These well established and professional sales organizations will provide solid representation to customers across Southern California, Arizona, New Mexico and Southern Nevada.

“I’m very pleased with the highly professional sales coverage afforded to CPU Tech via our new partnerships with the best Independent Sales Organizations in the Southwest”, said Jim Ball, senior vice president of Sales at CPU Tech. He added, “Quatra, Quest and Norcomp SC bring an exceptional track record in selling complex SOC technology. This success, plus their deep customer relationships, will undoubtedly bring enhanced customer engagements, design wins and commensurate revenue growth for CPU Tech.”

“We pride ourselves on establishing strong working relationships with design engineers at all of our accounts,” said Gary Thompson, President of Quatra Associates. “CPU Tech’s secure processing solutions and compatible modernization now allow us to identify a whole new set of programs we can help our customers with”.

“With a large number of defense contractors in the San Diego area, we feel CPU Tech’s Acalis Secure Processor and Modernization solutions will be very well received,” said Bob Ulrich, President of Quest-Rep. “As the need for secure communications continues to increase throughout multiple markets, we’re excited about the growth potential with CPU Tech.”

“We feel that there is a significant opportunity for CPU Tech’s Acalis Secure Processor and Electronic Modernization solutions in our market,” said Sun Choe, President of Norcomp SC. “We are pleased to be representing CPU Tech as an innovative solutions provider in an expanding market place.”

About Quatra Associates

Quatra Associates is a representative for semiconductor and electronic component manufacturers servicing Arizona, New Mexico, Clark County, Nevada, and El Paso, Texas with two offices and seven sales reps now representing ten manufacturers.
